## Rural Wireless Broadband for Remote Learning and Working

Individuals and families in rural areas now have the opportunity to access CriticalLinc™, our mission critical LTE network, using the Franklin Wireless Mobile R717 Hotspot.

This compact and affordable hotspot enables rural residents with limited broadband access to participate in activities like online courses and remote meetings. The R717 gives up to 15 wireless-enabled devices access to the CriticalLinc™ network using a mobile hotspot data plan.

**Southern Linc has a proven track record of providing high-quality wireless services throughout the Southeast, delivering performance, reliability and security for broadband data applications.**

**Performance:** We deploy advanced communications using diverse wireless technologies.

**Reliability:** We ensure pervasive connectivity during critical events through redundant backups.

**Security:** We employ enterprise-class cybersecurity protocols to protect your network and assets.

### Hotspot Individual Data Plans

| DATA  | MONTHLY FEE* |
|-------|--------------|
| 1 GB  | \$30         |
| 3 GB  | \$40         |
| 5 GB  | \$52         |
| 8 GB  | \$72         |
| 15 GB | \$100        |

\*Data speed is reduced when plan allotment is depleted. You may upgrade to a higher data plan if more data is needed. One data plan per Hotspot device. Plans do not Pool.

# Franklin Wireless R717 Mobile Hotspot Details

## Remote Capabilities

Perfect for areas with limited broadband coverage, users can connect up to 15 Wi-Fi enabled devices simultaneously and keep them secure with a custom network name and password capabilities.

## Convenient Access

This compact device fits easily into pockets, backpacks, purses and briefcases. Users can place the device on their desk, in the car or at the jobsite and have instant wireless LTE network access. Southern Linc customers can easily connect their laptops, tablets, e-readers and other Wi-Fi enabled devices.

## Simple User Experience

To instantly connect to the CriticalLinc™ network, simply turn the device on, search Wi-Fi options, find the unique identity for the device and complete a password authentication. If the user is outside the Southern Linc footprint, the device locates one of our roaming partners in order to provide wireless network access.

## Innovative Features

With its 2450 mAh battery, Southern Linc customers can enjoy up to eight hours of battery life and 20 hours of standby battery life. And with its powerful 600 MHz extended range, this device can be used for long-range indoor and outdoor applications. The OLED Mono Display (128x36) allows users to keep track of data usage, battery life, network signal strength and number of connected devices right from the bright, easy-to-read display. The device also provides a USB Tethering Connection and Micro-USB Charger.

# Franklin Wireless R717 Mobile Hotspot Technical Data

## Technology

---

- MDM9207-0
- LTE Bands: 2 (25), 4 (66), 5 (26), 12, 41, 71
- UMTS Bands 1, 2, 4, 5
- Simultaneous, dual band WiFi (b,g,n,ac)
- LTE Category 4
- DL/UL : Up to 150Mbps/50Mbps
- IPv4/v6
- Processor Speed: Single-Core 1.3GHz
- OS: Linux 3.18

## Features

---

- OLED Mono Display (128x36)
- USB Tethering Connection
- 4FF SIM
- 4x2 MIMO

## Wi-Fi

---

- 802.11 b/g/n/ac
- 2.4 & 5 GHz
- Connect up to 15 devices simultaneously

## Battery

---

- 2450 mAh (Up to 8 hours usage)
- 20 hour Standby time

## What's in the box

---

- LTE Mobile Hotspot
- Sim Card
- Get Started Guide (English/Spanish)
- Terms and Conditions Booklet
- Important Information Booklet
- Battery
- Micro-USB Charger

## Memory

---

- RAM – 256MB
- ROM – 256MB

## Dimensions

---

- L: 4.13 (in) X W: 2.63 (in) X D: 0.51 (in)
- Weight: 85 (g)

## Operating & Storage Temperature

---

- Operating Temp: 0 ~ 47°C (32 ~ 116.6°F)
- Storage Temp: -20 ~ 60°C (-4 ~ 140°F)
